

EVENING BULLETIN.

MONDAY EVENING, OCT. 27, 1886.

OUR COUNTRY AND ITS PROSPECTS.—Some interesting facts are recapitulated in the United States Military Argus. It is stated that the population of the eleven infant colonies in 1701 was 262,000 souls. Georgia and Delaware were added to the number about 1749, and the census reports give us 1,046,000. In the year 1775, the thirteen colonies had 2,303,000 whites and 500,000 slaves. After the adoption of the present Constitution, in 1790, there were thirteen States, with 3,172,664 white, 50,456 free colored, and 697,807 slaves. In 1850, the States had increased to thirty-one, and the population to 19,350,000 whites, 434,000 free colored, and 3,204,000 slaves. The total population is approaching thirty millions. The number of electoral votes is 296, requiring 149 to elect a President by the people. The free States have 176, and the slave 120.

A DOMESTIC IMPROVEMENT.—Putting down carpets with tacks has always been a trial and tribulation to housekeepers, which ought to have been obviated by some better invention before this. We see that an improvement which will answer the purpose has been announced. It consists of a series of cast iron buttons, with the lower end formed in the shape of a cam. This is secured to the base board of the room, and when the carpet is properly stretched the cams are turned down upon it and retain it firmly in place. This saves the carpet from the wear and tear of tacks and the floor from the injury of nails being driven into it, besides making the putting down and removing of carpets but a few minutes' work.

NEGRO INSURANCE IN TEXAS.

COLUMBUS, Colorado Co., Sept. 9, 1886.

The object of this communication is to state to you all the facts of any importance connected with a recent inter-district insurance. Our suspicions were aroused about two weeks ago, when a meeting of the citizens of the county was called, and a committee of investigation appointed to ferret out the whole matter, and lay the facts before the people of the county for their consideration. The committee entered upon their duties, and in a short time were in full possession of the facts of a well-organized and systematized plan for the murder of our entire white population, with the exception of the young ladies, who were to be taken captive and made the wives of the diabolical murderers of their parents and friends. The committee found in their possession a number of pistols, bowie-knives, guns, and ammunition. Their passwords of organization were adopted, and their motto, "Leave not a shadow behind."

Last Saturday, the 6th inst., was the time agreed upon for the execution of their damnable designs. At a late hour at night all were to make one simultaneous, desperate effort with from two to ten apportioned to nearly every house in the county, kill all the whites, save the above exceptions, plunder their homes, take their horses and arms, and fight their way on to a "free State" (Mexico).

Notwithstanding the intense excitement which moved every member of our community, and the desperate measures to which men are liable to be led on by such impending danger, to which we had been exposed by our indulgence and leniency to our slaves, we must say the people acted with more caution and deliberation than ever before characterized the action of any people under similar circumstances.

More than two hundred negroes had violated the law, the penalty of which is death. But by a unanimous consent the law was withheld and their lives spared with the exception of three of the ringleaders, who were on Friday, the 5th inst., at 2 o'clock P. M., hung, with the unanimous voice of the citizens of the county.

Without exception, every Mexican in the county was implicated. They were arrested and ordered to leave the country within five days, and never again to return under the penalty of death. There is one, however, by the name of Frank, who is proven to be one of the prime movers of the affair, that was not arrested, but we hope that he may yet be, and have meted out to him such a reward as his black deeds demand.

We are satisfied that the lower class of the Mexican population are incendiaries in any country where slaves are held, and should be dealt with accordingly. And, for the benefit of the Mexican population, we should here state that a resolution was passed by the unanimous votes of the county forever forbidding any Mexican from coming within the limits of the county.

Peace, quiet, and good order are again restored, and by the watchful care of our vigilance committee, a well organized patrol and good discipline among our planters, we are persuaded that there will never again occur the necessity of a communication of the character of this. Yours, respectfully,
JOHN H. KOSBON,
H. A. TATUM,
J. H. HICKS,
Cor. Committee.

SHOCKING OCCURRENCE—Two Women Eat a Wolf.—Our pen has seldom had to record a more heart-rending circumstance than we are about to relate. Some ten days ago, in the northern extremity of the township of Mornington, two females went out in the evening in search of their cubs, and not returning till night, search was made in the morning, when their skeletons were only to be found, their flesh having been devoured by the wolves. We are yet unable to record the particulars—the sad outlines only having as yet reached us. Our informant also states that a man in that locality has been missing for the last ten days. No trace of him can be found whatever, and fears are entertained that he met the same lamentable fate as the unfortunate women.

The wolves were never before known to be so numerous or so ravenous as they are this season in this section of the country. It is regarded as unsafe to be alone on the public highways after dark. Reports are reaching us almost every week of some of their ravages through the country. Almost every body has been visited by them, and mischief done to a greater or less extent.

A farmer in North Easthope had 30 sheep killed in one single night by them. They drove them to the barn-yard, and killed them there. A few nights previous they killed 12 belonging to the same men.

Bears are also numerous and remarkably saucy. A Mr. Bennett of Mornington was attacked a short time ago, in his own field, a little after dark, by an old bear with three cubs. He fought her off till some of the neighbors came to his relief. An immense one was killed in Mornington a few days ago.

APPALLING BURNING OF A SHIP.—The following details of a horrible case of piracy and burning of a ship at Macao have been received at Lloyd's: The Dutch ship Banca, Capt. Heymans, 700 tons burden, with between 300 and 400 emigrants (coolies) for Havana, put back to Macao, about a month since (the dispatch is dated Hong Kong, Aug. 10), with her water casks leaking and cargo shifted, having encountered boisterous weather, and on reaching the outer roads brought up to an anchor. There she remained repairing, the officers exercising strict vigilance in preventing the coolies going ashore, for fear they would make their escape. For three weeks, whatever discontent may have prevailed, no fears of an outbreak would seem to have been entertained, until a Chinese doctor warned the captain that mischief was brewing. In preparing for such a contingency as a raising of the coolies, the small arms were placed on the poop, and two guns were loaded with grape and pointed forward.

About 9 o'clock of the night of the 8th, the disturbance commenced, and the crew took refuge on the poop. The captain first fired a shot or two overhead, but as that had no effect, and the coolies advanced toward them, yelling frantically, armed with belaying pins, bricks torn from the cooking places, &c., the captain gave orders to his men to fire, and immediately a volley was poured into the infuriated mass from the two guns, and also from the small arms. This had the effect of checking and putting down the riot, and the coolies were driven below, but they sought revenge by setting fire to the ship, and in a few minutes the captain was appalled by seeing flames issuing up from the fore hatch. A frightful scene of carnage followed; the coolies rushed up on deck, and no doubt murdered all the officers of the ship. None of them, nor the captain, were afterwards seen. The ship was soon in a blaze, fore and aft. In about an hour the mainmast fell with a crash, then the fore and main, and about midnight the magazine blew up with a tremendous explosion. The ship was instantly hurled to fragments, and a vast number of poor creatures, clinging on the chains, perished with her. Of the number who were on board, including crew and passengers, about 500, only 150 escaped with their lives; the remainder were either burned in the ship or drowned. The affair has produced a great sensation at Hong Kong.

THE MEXICAN PRIESTHOOD.—President Comonfort, says the N. Y. Evangelist, is engaged in the most important and sweeping reform ever undertaken in Mexico in secularizing the Catholic Church, and dispossessing it of some of its ill-gotten treasures. The difficulties which have obstructed the progress of that State hitherto are to be attributed mainly to the overwhelming power of the Church. The governments which were not pleasing to the priests had no stability. Where there were two parties contending for the supremacy which ever the church inclined to succeed. The hierarchy is overwhelming.

The arch-bishop has nine bishops under him, all having cathedrals and chapters, except the Prelate of Sonora—with 185 prebendaries and canons, 1200 parishes and a regular and secular clergy amounting to 10,000 persons under his complete dominion. Of the regular clergy, 2,500 reside in the capital, and the orders of the Dominicans, Franciscans, Carmelites, and Mercedarians possess 150 convents. The salary of the archbishop is \$130,000 per annum, that of the bishop of Puebla is \$110,000. The remaining bishops receive altogether about \$200,000 more. The Signor Lendo de Tegada, who is now at the head of the finances, asserts that the real property of the clergy is of the value of from two hundred and fifty to three hundred millions of dollars.

In the city of Mexico, containing five thousand houses, worth eighty millions of dollars, the church owns one-half, and the income has been estimated by the minister at twenty millions of dollars. Waddy Thompson, our former minister at Mexico, was of the opinion that one quarter of the whole country belong to the priests. The quantity of gold, silver, and jewels in the churches is great enough to pay the whole foreign and domestic debt. A single balustrade, about three hundred feet long in the Cathedral of the capital, is supposed to be worth a million of dollars.

AN INCIDENT.—An incident occurred on Saturday, at the Arcade, adjoining our office, which furnishes an amiable commentary upon the atrocious charges of the abolitionists of a total want of feelings of humanity on the part of the Southern people. Passing through the Arcade saloon, we noticed at one of the auction-stands a negro girl up for sale, and around a closely-packed crowd that appeared to be deeply interested in what was going on. Curiosity led us to pause and inquire what was the cause of the apparent excitement. The bids were going on in a very spirited manner, and generally at an advance of only five dollars at a bid, and at every bid the eyes of the crowd would quickly turn in the direction whence the bids proceeded, the interest and excitement being in the meanwhile upon the increase. The girl, a bright, intelligent mulatress, about fourteen years old, was evidently not indifferent to what was transpiring. There was no moisture in her eyes, but they assumed an expression which indicated that she felt some anxiety in regard to the result of the sale, which is not generally the case. As the bids reached near a thousand dollars, the excitement became intense, and as that figure was called, a spontaneous hiss was heard from one end of the room to the other, followed by a vehement shout of "Turn him out!" "Turn him out!" A rush was made for the door, the hammer had fallen, and the girl also into the arms of her mother, who had become her purchaser!

The explanation of it all was that the woman had been freed by her owner, and had earned money enough to buy her child, the mulatress in question, and being a very valuable servant several persons were very anxious to obtain her, but all of them, with one exception, had pledged the mother that they would not bid against her, and they honorably kept their faith. It was the conduct of this one, who was bidding against the mother, which so exasperated the crowd on the occasion. The man made good his escape, fortunately so for him we think, as we heard sundry expressions about "lynching," etc., as the crowd came back to talk over the matter. The mother was so much affected by the joy of having obtained possession of her child, that she swooned away and was carried out of the saloon.

We may add that the sale was a succession sale, and was not designed to be anything more than nominal, and nobody intended that the mother should be deprived of her child. This incident, showing as it does the real feelings that predominate in the South when the chord of humanity is touched, is worth more than all the mock philanthropy which spends itself in crude theory and cheap denunciation, which has deluged the country and arrayed its different sections in bitter hostility against each other in modern times.—N. O. Bulletin.

The heroic Sir Charles Napier wrote very beautifully and touchingly to a lady on the eve of his great victory at Meeanee—"If I survive I shall soon be with those I love; if I fall I shall be with those I have loved."

DREDGING OF THE MISSISSIPPI RIVER.—The contract with the Government of the United States, through the Engineer Bureau of the War Department, for opening the Southwest Pass and Pass a l'Outre, in the Mississippi river, to a depth of twenty feet and a width of three hundred feet, and to keep these channels clear for the period of five years, has been awarded to Messrs. Craig & Righter, of Newport, Ky. The sum for which they contract to perform this work is \$330,000.

FIRE AT MARIETTA.—On Wednesday night the extensive works of the Harman Manufacturing Company, opposite to Marietta, were entirely destroyed. They consisted of machine shops, foundry, flouring mill, warehouses, and a large quantity of wheat, flour, and machinery on hand, was all consumed. Seventy-five to one hundred hands are thrown out of employment. Loss from \$75,000 to \$100,000. Insured for \$20,000.

A TYPE OF ITS KIND.—A gentleman relates to the editor of the Norfolk American a very good anecdote, based on an incident which recently took place in one of the cars of the North Carolina railroad. It affords a timely and appropriate illustration of the tendency of a good deal of the ultra Southernism just at this period. The American says:

Two persons of a highly respectable appearance of being gentlemen, commenced a conversation with him upon the political issues of the day, in which they proceeded to stigmatize the current agitation of the slavery question, by the Democrats at the South, as an arrant humbug, gotten up for party effect, &c. After a while they left their seats and went forward for some purpose, when two gentlemen, who had been listening in indignant silence to the Black Republican tirade of the first named gentleman opened a conversation, in which they took occasion to castigate, and to denounce most severely, the abolition proclivities of the gentlemen who had dared to stigmatize the holy horror of the Democrats over the slavery question, as so much unmitigated humbug, and finally intimated that such men were dangerous and that it would be better for them to leave the State.

Our friend tried first to induce a more charitable feeling towards the first speakers, but the two last would not entertain it; then suggested that perhaps they (the last speakers) were not capable of giving an unbiased opinion, as probably each of them owned an immense number of slaves, which property they would be jeopardized by the liberal sentiments of the two first speakers. They assured him that he was mistaken, that neither of them owned a single slave, but that their indignation at the loose and incendiary doctrine of the two first speakers arose solely from a pure devotion to the South—unadulterated by a particle of personal interest.

After our friend—who, by the way, has the keenest possible relish for a quiet good thing—had succeeded in drawing out an immense amount of Buncombe indignation, at the vile and incendiary doctrines of the first speakers, he very naively inquired if they knew who the men were whose abolition proclivities they were denouncing. No, answered they. Then, said he, I have the pleasure of informing you that one was Mr. Pettigrew, of North Carolina, who owns several hundred slaves, and the other is Jas. C. Johnson, who owns nearly two thousand! The effect can be imagined.

HEINRICH HEINE AND HIS MOTHER.—"So she is still living, the 'old lady by the Damme-berg'?" (his poetical appellation). "Yes," he replied, "old and sick and infirm, but with the same warm mother's heart." "And you write often to her?" "Regularly, once a month." "She must be very unhappy on account of your condition?" "My condition?" echoed Heine; "oh, as for that, our mutual position is peculiar. My mother thinks me in just as good health as when she last saw me. She is old, and never reads a newspaper, and the few old friends who visit her are in the same condition. I write to her often, in as good spirits as I can, tell her about my wife, and say how well I am going on. As it is somewhat remarkable that the address alone is written by me, and that all the rest is in the hand of my secretary, I make her believe that I have a slight affection in the eyes that will soon pass away, and voluntarily refrain from much writing with my own hand. And thus she is made happy. That a son could be so sick and cherished as I am in reality, no mother could believe."

Power of Enduring Cold.—The mysterious compensation by which we adapt ourselves to the climate are more striking here than in the tropics. In the Polar zone the assault is immediate and sudden, and unlike the insidious fatality of hot countries, produces its result rapidly. It requires hardly a single winter to tell who are to be heat-making and acclimated men. Peterson, for instance, who has resided for two years at Upernivik, seldom enters a room with a fire. Another of our party, Geo. Riley, with a vigorous constitution, established habits of free exposure and active, cheerful temperament, has so injured himself to the cold, that he sleeps on our sledge, journeys without a blanket, or any other covering than his walking suit, while the outside temperature is 30 degrees below zero.—Dr. Kane's Journal.

Not Bad.—A good joke is reported to have taken place in the court of quarter sessions last week. An Irishman, charged with appropriating some trifling articles of clothing belonging to one of his neighbors, was placed at the bar for trial, and after the indictment had been read, the usual question, "How say you, Patrick, guilty or not guilty?" was put to him. Patrick seemed nonplussed by the interrogatory, but he soon recovered himself, and, scratching his head, replied: "Arrah misha how can I tell, yer honor, till I hear the evidence?" The answer, though not strictly in accordance with the prescribed form, was taken as a negative; the trial proceeded, and Patrick was acquitted.

A most villainous practice obtains among certain unknown parties in Washington city lately of destroying ladies' dresses as they walk the street with vitriol, oil, and other destructive fluids. It appears they lie concealed in cellars along the sidewalk, and watching their opportunity, project the destructive matter through the grating by means of a syringe. It is to be hoped the authorities may discover the authors of these outrages.

Insane from Cruelty.—A German woman named Mary Folk, aged about 23 years, was brought before the Probate Court yesterday on the representation of being insane. From the testimony, it had appeared that she had been cohabiting with a man in Louisville for some time past, and that recently he had treated her with great cruelty, and deprived her of her child. This ill-treatment was more than she could bear, and deprived her of reason. The court sent her to the Lunatic Asylum, and measures will at once be taken to procure the arrest and punishment of the heartless villain whose inhuman conduct produced the lamentable result.—Cin. Eng.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath when by using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet but leave the teeth white as alabaster? Many persons do not know their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples, and freckles from the skin, leaving it of a soft and rosy hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving-brush in either warm or cold water, pour out two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving.

DUNKEE, HEATH, & CO. have just received another importation of all shades of French Merinos, which we are offering at 75 cents a yard (fully equal to any Merinos sold in this market by other dealers at \$1 a yard), 50 pieces at \$1 a yard, and 50 pieces at 90 cents a yard. We invite everybody to call and examine these goods for themselves, and they will see that any attempt at competition in price or variety of stock on the part of other houses in this city is simply ridiculous.
